\$ MEDIA KIT 2026

Your trusted
media for the dairy industry

MESSAGE FROM TEAM DAIRY

Dairy Industries International is the leading monthly magazine dedicated to the global dairy processing, packaging, and distribution sectors. With an international readership across more than 77 countries, it delivers trusted news, in-depth analysis, and technical insights to senior decision-makers and industry professionals. As the authoritative voice of the dairy supply chain, it offers advertisers a unique platform to reach a highly engaged and influential audience worldwide.

Alongside our high-quality monthly print edition, we offer a weekly e-newsletter, an industry-leading website (www.dairyindustries.com) with daily updates, and active LinkedIn and Twitter channels. Together, these platforms provide advertisers with multiple touchpoints to connect with readers, ensuring maximum visibility and engagement.

For 90 years, our philosophy has remained the same: if it matters to our readers, it matters to us. That commitment has kept Dairy Industries International at the forefront of the industry since 1936 - delivering value to both our audience and our advertising partners.

Suzanne Christiansen, Editor

Our Editorial Board is regularly updated to ensure it continues to represent the current expertise in the global dairy sector. At present the board members are:

Dr Judith Bryans, Director General, Dairy UK and President, International Dairy Federation

Jenny Deepprose, Dairy Journalist & Cheese Expert

Dr Fiona Lalor, Food for Health Ireland, University College Cork

Donald Moore, Executive Director, Global Dairy Platform

Marian Pusey, Executive Director, Society of Dairy Industry

SYCAMORE
PROCESS ENGINEERING

The go to Experts in End-To-End Hygienic Process Solutions for the Dairy, Food and Beverage Industries.

End-to-end Solutions

Providing hygienic designs, helping to increase production and delivery the total efficiency

Import/Export

Efficient systems with hygienic designs, ensure products stay within quality parameters

Flexibility/Adaptability

Designed to facilitate hand transfer, minimising downtime and energy consumption

Membrane Filtration

Reduce energy consumption, enhance product recovery and reduce microbial load

Clean-in-Place

Reduce cleaning cycle time, minimise water and chemical use, and enhance full traceability

Project After-Care

To ensure the longevity of your plant we provide comprehensive Project After-Care

Engineering Peace of Mind

Supplier Profiles

System Process Engineering - Delivering End-to-End Excellence in Process Solutions

System Process Engineering is a leading provider of end-to-end hygienic solutions, supporting customers across the Dairy, Food, Beverage and Pharmaceutical industries. Our holistic approach, spanning all design, supply, installation, commissioning, operation and upgrading, ensures systems are robust, efficient, and optimised for long-term performance.

With over 30 years of industry experience, Sycamore is the leading partner for manufacturers seeking robust and scalable production systems. Our expertise in delivering a complete range of end-to-end solutions, from design to installation, ensures a deep understanding of the detailed technical requirements of the industry.

From initial consultation through to commissioning, Sycamore offers fully integrated services including design, project management, installation, commissioning, operation and ongoing support. Sycamore's end-to-end capabilities allow us to deliver bespoke solutions tailored to each customer's unique production requirements, ensuring optimal sustainability, safety and efficiency in all areas of operation.

Our commitment to the customer is evident in the dedicated project management team, ensuring energy, water and chemical consumption is optimised, and product integrity is the industry standard.

From increasing pressure to decolourise and clarify water, Sycamore is helping its customers take control of their water usage, reduce environmental impact and improve production efficiency.

Our automation systems and data integration capabilities allow our customers to monitor and control their production processes in real-time, ensuring maximum efficiency and safety.

From the ground up, Sycamore's expertise in design, installation, commissioning, operation, and dedication to deliver the highest quality, most efficient, and most sustainable production solutions.

Supplier Profiles

Filling machines for dairy and more

With over 1400 machines required annually, Ampack's range of filling machines for dairy and more is the industry's most advanced. Available in a range of sizes, from 100 to 1000 litres per hour, Ampack's machines are designed to meet the specific requirements of each customer's production process.

Comprehensive expertise - all from Ampack

From design to installation, commissioning, operation, and maintenance, Ampack offers a complete end-to-end solution for its customers. Our experienced team of experts ensures that every machine is delivered to the customer in perfect condition, ready to start production.

Your partner for future proof solutions

Sustainability is at the core of Ampack's development strategy. All machines are designed to be energy efficient, easy to maintain, and built to last. Our commitment to innovation ensures that our machines are always up-to-date with the latest technology, ensuring maximum efficiency and safety.

WHERE SAFETY MEETS DELIGHT.

At Ampack, we combine all that matters about filling and packaging technology with the ultimate assurance of equipment and customer safety. Because your product deserves the best performance every step of the way.
